ADG Concepts, the globally recognized experts in the Compressed Air industry for over 15 years, specialize in designing, installing, servicing, and monitoring Compressed Air, Vacuum, and Nitrogen systems.

Our mission is to support Manufacturers, Engineers, Contractors, and End Users by maximizing equipment efficiency to reduce both direct and indirect operational costs, significantly enhancing our customers' ROI. We focus on all aspects of compressed air for manufacturing, industrial applications, oil and gas industry, petrochemical and paint booths, including compressors, equipment pads, air loops, drops, and final equipment connections.

Whether it's a simple equipment installation or a complete turnkey solution, our dedicated team is equipped to handle the project. At ADG Concepts, we bring ideas to life. Simply put, you provide an idea, and we make it a reality.

## T U R N K E Y S O L U T I O N S

Our methodical turnkey solution takes into account every need you have. Then, you experience the ADG difference. From a comprehensive assessment of your current system, to expert design, 3D modeling, to using our own installers, you get an expandable system with long-term sustainability and massive ROI!

## O T H E R S E R V I C E S

We also offer a full-service facilities and maintenance support department dedicated to serving industrial and manufacturing facilities. Our extensive range of services include millwright work, electrical projects, architectural endeavors, complete floor—to—ceiling remodels, process piping, ducting, and more. We are committed to delivering innovative solutions that meet your requirements, safely and efficiently.

# C U S T O M   S K I D P A C K A G E S

Our fully fabricated skid-mounted packages are entirely customizable, easy to transport, and engineered to maintain top-notch features and superior performance, ensuring reliability and efficiency without any compromise.

With the petrochemical industry changes we have witnessed and the ones we anticipate in the upcoming years, we ensure your project not only meets but surpasses the stringent compliance standards set by the EPA, EHS, OSHA, and FREC.

With our expertise, every element of your project adheres to the highest safety standards, giving you the assurance that your operations are fully in line with the latest regulatory guidelines.

# PIPING DIRECT

Air Piping Direct is your premier destination for all things related to air piping solutions. With a focus on providing top-quality products and comprehensive services, we cater to a wide range of industries and applications requiring efficient and reliable air piping systems.

Our extensive product range includes pipes, fittings, valves, accessories, and more, renowned for their durability and performance. Whether you're looking for standard components or specialized solutions, we have you covered.

# W H O   W E   S E R V E

As the world's leading designer and implementer of compressed air and gas systems, we are trusted by top brands across industries like aerospace, manufacturing, food packaging, and petrochemicals. Our deep expertise and commitment to excellence ensure tailored, reliable solutions that exceed industry standards, making us the first choice for businesses seeking the best in efficiency and safety.

## Our Clients Love Us

I greatly appreciated the ability of ADG to be flexible in work schedules as downtime work routinely was a real challenge with moving production schedules.

**MATT MERKEL**

RUIZ FOODS  
Director of Engineering

Partnering with ADG on our nationwide Walmart distribution centers from coast to coast is one of the best decisions we have made for these projects.

**JUSTIN JOHNSON**

MYCON  
Project Director

I have seen this work done many, many times all over the world—this is the best I have ever seen.

**KLAUS FRIEDERICH**

KOENIG & BAUER  
Chief Engineer
